

State-sponsored groups like Silk Typhoon are disrupting research. Not just hacking for intel. COVID-19 cyberattacks showed us this. Xu Zewei's extradition to the U.S. is a move. Will it deter others? Checkmarx's GitHub repository data is on the dark web. Supply chain attack. Are we securing our software development lifecycle? MITRE ATT&CK or NIST Cybersecurity Framework for SOC operations? Incident response or vulnerability management? Prioritize one.
